December 8, 1978

Ms. Beatrice S. Tylutki, Director
State of New Jersey
Dept. of Environmental Protection
Solid Waste Administration
P. O. Box 2807
Trenton, NJ 08625

Attention: Mr. Frank Coolick

Dear Ms. Tylutki:

Subject: National Gypsum Property
Millington, Morris County, N. J.

As per my discussion with Mr. Frank Coolick of your office on December 7, 1978 regarding minor repairs along the Passaic Riverbank at the subject property, it is our intention to carry out the above mentioned work as approved by your office, as per Stream Encroachment Permit 8419, and is in accordance with Gold Bond Building Product's drawings MJP 2 and 2A.

The contractor is on the jobsite and work has commenced according to plans. Let me assure you that we intend to complete the work as quickly as possible; however, it is unlikely that the work will be completed by December 31, 1978 due to weather conditions. Therefore, we respectfully request an extension of the completion date as weather permits.

If you have any questions, please do not hesitate to contact me.

Sincerely yours,

Padamshi Chheda, P.E.
